## OUR BRAND AMBASSADORS JOURNEY OF OUR SUCCESSFUL LEARNERS

Preface	02
Our Target Groups	03
Overview of Employability	03
Experience of some of our successful learners	04
Learners from Bangalore - KR Puram	10
Learners from Chennai - Chromepet	12
Learners from Chennai - Tambaram	14
Learners from Hyderabad - Ameerpet	16
Learners from Pune - Chinchwad	18
Learners from Thane - Uthalsar	20
Learners from Trichy - Thillai Nagar	22
Learners from Salem - Alagapuram	24

The booklet that you hold in your hand, includes success stories on the lives of those who were trained and placed under the Corporate responsibility & sustainability programs by Capgemini. These programs focus on providing skill development training to the underprivileged and unemployed youth of India and ensure building a sustainable career path for them.

Capgemini's Community Program is aligned to the importance of talent and skills with the themes of education and development being identified as the key, in recognition of the skills and talent Capgemini can offer today as well as in future. We believe education is the most powerful tool that can bring change in communities, which is why we have a global ambition of touching 1 million lives through our Education & Skills programs by 2020.

EduBridge Learning Private Limited is one of our implementing partners, helping us achieve this goal. EduBridge is a Mumbai-based training organization that has been setup with the vision of fulfilling the skill gap that exists currently between semi-urban/economically backward youth and the skill requirements of the high-performing companies. EduBridge is an esteemed partner of National Skill Development Corporation (NSDC), a Govt. of India organization, and participates in the mission of up-skilling India's rural and semi-urban youth.

Capgemini/EduBridge LEAP Career Academies were setup in KR Puram (Karnataka), Chennai, Trichy, Salem (Tamil Nadu) Ameerpet (Telangana) & Mumbai (Maharashtra) with the vision of training and placing more than 250 youth per academy in a year. We wanted to reach out to some of our beneficiaries and understand their journey and take pride in their dedication, hard work and success that followed after their training was completed.

“

“Exponentially large number of the educated, working population in the country today, have little or no skillset, making them largely unemployable.

Skill Development Activities through capable corporates is just one of the many channels through which bridging the gap in demand and supply of skilled manpower across all industry sectors and business verticals can be achieved.”

EduBridge Learning CEO, Mr Girish Singhania, said.

”

## PROGRAM HIGHLIGHTS

- Address the issues of poverty and unemployment by training and placing youth from under privileged sections of the society
- Increase in family income of placed youth & raising their level in the society
- Youth to become role models in their society and influence the remaining society towards employment and building a career.
- Setup Training Academies and train 250 youth per academy per annum
- Provide employment to over 70% of trained youth

## TURNING VISION INTO REALITY

When a Capgemini/EduBridge LEAP Career Academy learner graduates, we celebrate it wholeheartedly. When a learner begins the process of pursuing a new role, a new job, a new career; we support them every step of the way. When a learner lands a new job, we want to praise them for their achievement. We take the opportunity to do that today through this booklet and by sharing their stories as inspiration!

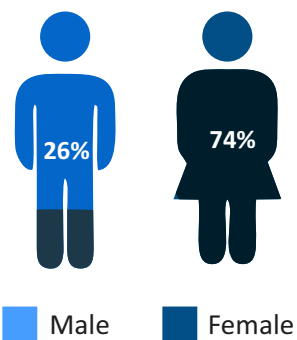

## THE STORY CONTINUES...

Through this program, Capgemini and EduBridge together, have already influenced and will continue to influence the entire Career Development Process of the youth. From counselling the learners, to training them, to placing them on jobs and assisting them in settling in their new job environment; this program covers all the aspects, ensuring great outcomes and a truly impactful program. The stories you are going to experience herein onwards are the true advocates of this intervention.

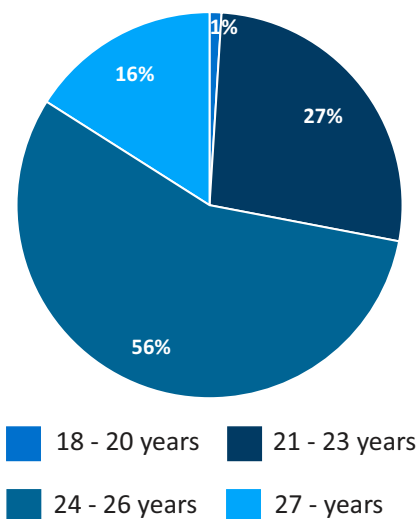

So let's experience the journey of some of our beneficiaries through their own stories!

“ We hired learners from EduBridge Learning especially from the IT/ITeS sector. It satisfies us the most, when it comes to your organization. We appreciate the academy to generate an environment of good educational learning and discipline. - Recruiter ”

EXPERIENCES OF SOME OF OUR LEARNERS

- RUTUJA PAWAR

Rutuja Pawar enrolled at EduBridge with basic technical knowledge in computer science, but she aimed for more. She had never attempted to do an online course before, but the pandemic called for adjustment. After speaking with a representative at EduBridge, learning about the courses offered there, the training techniques used and the placement opportunities, Rutuja wasted no time in enrolling for a course.

Today, Rutuja works at Accenture, a renowned multinational corporation, as an application development associate. After training for 6 months at the firm and clearing a series of examinations, Rutuja was assigned a project which enabled her to understand and adapt to the work culture of her workplace. However, a role of this stature commands confidence and efficiency, two qualities that she was developed via her training at EduBridge.

“ I was scared to even talk to new people earlier and voice my opinion on topics. Today, I am confident and I look forward to sharing my viewpoint on different subjects. ”

Rutuja attributes this shift in her personality to the trainers at EduBridge, who she affirms, did an impeccable job at shaping her personality.

Rutuja felt content at the end of her course at EduBridge, since the training techniques used by the Master trainers helped her in many ways. “We had assessments for every topic, assignments for homework, and also many activities to build our communication skills. Although I had worked in web development before, a job at an organisation like Accenture was possible for me only because of the knowledge I gained at EduBridge”.

The first working woman in her family, Rutuja maintains that her current job at a multinational corporation is just the beginning and she has planned a busy future for professional life ahead. The eldest among three siblings, Rutuja feels the need to take responsibility and fulfil her ambitions. She is currently focusing on her next examination, which once cleared, will enable her to earn more and even gain a possible promotion. Rutuja is also pursuing her studies for clearing government examinations on the side. “The confidence I developed through EduBridge is something that cannot be learned overnight and only comes with the right training. I was very happy with the aptitude and quantitative training, both of which continue to help me at work. I want to now grow in this field in a step-by-step manner. If you want to increase your confidence too, do not look further than EduBridge!”

ANNUAL SALARY OFFERED: **₹ 2,40,000**

- SARIKA KAKULATE

Sarika Kakulate was eager to work post her marriage, but the pandemic was making it difficult for her to find a job in her chosen field of work. Her friend had completed a course at EduBridge on Python, a type of programming language, and encouraged her to train at the institute as well. Sarika had heard a lot about the placement opportunities offered by EduBridge and the efficient trainers there, which finally led to her enrolling at the institute. She joined EduBridge with the intent of increasing her existing knowledge & hoped for a good placement in a reputed company.

A few weeks later, Sarika had completed her course at EduBridge and had the first job letter of her life, in her hand. Currently working at Capgemini on a USA-based project, Sarika eventually aspires to work as a Python developer. Now, she too, is able to contribute to her family financially, alongside her father, who works as a teacher and her husband, who is a working professional as well. But Sarika believes that the journey till here was possible only because of her persistent efforts and the professional training she received from the master trainers at EduBridge.

“ My life Mantra :  
Confidence is the most important trait which everyone should have to achieve anything in life.  
Don't Quit and Don't stop learning, ever! ”

According to Sarika, the best part about her course was the attitude of her trainers, who trainers took a practical approach to the lessons and did not restrict the learning process to theoretical discussions. The learners were given various projects to work on, which helped them to develop soft-skills, build leadership skills and build an aptitude for their respective fields of work. Such benefits became apparent during the job search process, and especially during job interviews.

As the first woman to work in her household, and beginning her career path after work, Sarika has broken the glass ceiling in her family to rise above any obstacles that were blocking her path. She believes that the switch from being unemployed to having a job was a pleasant one, albeit one that brought its own set of responsibilities and demanded consistent hard work.

Sarika's long-term goal is to become a data scientist one day, which would be a significant career shift for her, but she is confident that her dreams will manifest, owing to the knowledge and sufficient training she received whilst at EduBridge.

- SHWETA BHAVSAR

“I just bought a new mobile phone for my mother and my aunt with my first salary. I also ordered a guitar for myself, since I love music and I have always wanted to play it!” Shweta Bhavsar shares excitedly. This is her success story, but it's only just the beginning of what's yet to come, as is evident through her achievements till date.

A year ago, she was searching for a job at every other firm, but to no avail. Even her Bachelor's Degree in information Technology did not help her secure a job. “My sister was considering EduBridge, after a friend of hers recommended it to us.” It felt frustrating to sit at home having completed a formal education, with nothing to pursue. The numerous calls that Shweta received from different institutes left her confused. Hence, she also found it difficult to decipher the credibility of EduBridge. “Would it be worth it? Was it a good institute?” Shweta reasoned. To top it all, the pandemic made things worse with the need to find a job increasing manifold. “We tend to spend money without a second thought when we shop or eat. So, we decided to invest that money in a course instead”.

What Shweta learned at EduBridge enabled her to secure a job within a few months at the multinational firm, Capgemini, where she currently works as a Cloud Infra Engineer. She believes that the master trainers at EduBridge helped her to develop her personality, understand the importance of grooming herself, learn how to present herself in front of her seniors and build an aptitude in her chosen field.

“ I could barely get a sentence out before EduBridge happened. Now, I can talk endlessly to anyone, about anything, and with confidence! ”

Yet, Shweta asserts that this personality development was a result of the holistic training she received at EduBridge. Debates, group discussions, learning how to introduce yourself, mock interviews and other interactive tasks inculcated an aptitude of public speaking in her, while also developing her confidence in front of an audience. “We were all new at EduBridge. So there was a little fear. But, I would always take initiative. Whenever I would get a positive response or appreciation, it felt good. This encouraged me to push myself even harder next time.” At Capgemini, Shweta is also a team leader and is comfortable talking in front of crowds and colleagues.

When she returned home with her first job letter in her hand, her entire family celebrated, especially since she is the first working woman amongst them. Having witnessed her struggle to secure a job, her parents were left feeling nothing but pride when she landed her first job, that too, at a reputed international firm. For Shweta, the feeling was surreal, as she had always dreamt of being an independent working woman, who can fend for herself. “It is very important to earn, especially in today's generation. I am so happy that my wish has come true, so that I can now fulfil all my other wishes!” EduBridge, the turning point in her life, led her onto the path of success, which she hopes, will lead her to the offices of Paris one day, which is where the headquarters of her current company are based out of.

\*Some of the recruiters where our learners have been placed

- AJAY KUMAR

I finished my graduation in 2019 and started looking for a job actively but all I saw was my efforts going in vain. And to add onto it I saw my family business suffering as well due to pandemic situation. Being unemployed I decided to support my father in his wine shop but my family still kept telling me to not lose hope and keep looking for a job as they all knew my heart lies in IT. After endless struggles, rejections and a long wait of 1.5 years EduBridge came into my life as a ray of light at end of a dark tunnel.

A friend suggested I join EduBridge which provided trainings along with placements. An enjoyable experience with lots of learnings, and some friends for life is what I got from EduBridge. One of my trainers is still in touch with me and I can say he is a brother from another mother to me now literally. Just a call away for anything I need be it professional or personal. When I got an interview call from Capgemini I couldn't believe my ears as during my struggle days I had never even thought of applying for an MNC but when I received the offer letter I couldn't thank my stars.

“ I still remember the HUG my father gave me after I came home with my offer letter that read Ajay Kumar a Web Developer at Capgemini, and the way my entire family celebrated I have never seen them happier. I cant thank Capgemini and EduBridge enough for all that it has given me. ”

For me it has always been IT and Coding and even when I get free time I just keep coding and reading and updating myself, and I have always looked upto Sundar Pichai and he is my true inspiration. Moving ahead my goal is to be a team leader in near future and lead a team of 15-20 people and transfer my knowledge and learnings to them as well and become very successful and make everyone proud.

- AKHILA G.

An introvert by nature , I am Akhila a B.tech student from Yadgir city in Karnataka , I am 21yrs old and stay in a nuclear family with my father who is a farmer, my mother who is a housewife and my younger brother who is currently studying.

While studying B.Tech, I got to know from one of my college seniors about EduBridge and their offerings. So after gathering all the details I went ahead and joined the Soft Skills Training course.

I must say the set of trainers we had during our course were not only approachable but also helpful. They conducted a lot of activities during the course. The Mock Interviews conducted during the training, was in my opinion the most helpful during my final interview and landed me with my 1st job. My proud parents couldn't be happier when I showed them my offer letter which read Akhila, a Cloud Infra Engineer at Capgemini. All the hardwork & effort they had put in till date had paid off and here I was in an MNC setting an example for my brother as well to move ahead confidently in order to fulfill all his dreams.

“ I will always be grateful to my trainers to instill all the confidence in me that yes, I can do it and achieve whatever I want and also feel enormous to have a supportive bunch of seniors and colleagues. While I enjoy working, watching movies in my leisure time is what I look forward to. ”

I would like to end my experience by echoing my earlier vote of thanks to the entire team at EduBridge for transforming an introvert personality like me. It has indeed helped me gain my new found confidence which has acted as a great catalyst in encouraging me to share my experience with my friends. And my recommendation turned out to be positive as they all enrolled for various courses at EduBridge.

- ALEKHYA DODLA

Alekhya Dodla a young timid girl from Mahbubnagar Telangana always aspired to be a working professional after completing her graduation in Electronics. As a fresher acquiring a job wasn't easy without possessing the right skills. And this was the moment which made me realize that I needed something more to achieve my goal and that's when EduBridge came into my life. I always went through a tussle where my subconscious mind took over my conscious mind and Salman Sir helped me sail through this smoothly, by teaching me to be more mindful, I am indebted to him in every way for this. My performance speaks for itself while juggling between rotational work shifts and married life responsibilities.

Married just a month back, I couldn't ask for more, having a supportive husband, a family and a job at Capgemini as a Cloud Infra Engineer. While most of the day seems to be pretty hectic, listening to songs is a refreshing breather for me during my 'Me time'. And with no specific role model in my life, I always look upto every person I come across and interact with them with a simple intention to pick up positives from them. Only to incorporate those learnings in my routine and I feel that is only making me a better person each day.

“ I would once again thank Capgemini and EduBridge for providing a platform to upskill myself, make me a confident person and help me get placed with the best in these times. ”

Setting a short term goal for myself to multitask more efficiently and increase my knowledge about the industry processes, is going to be my point of focus for the next few years.

- BRINDHA R L

I give due credit for the change of personality to my master trainer Salman Sir, he transformed me as a person without a doubt. I was always a very demotivated person, full of negative thoughts and barely smiled, but he changed my entire approach towards life and I can say my biggest takeaway from him and EduBridge is Positivity and Smile which are now my energy boosters at every step.

I am Brindha R L, 25yrs young and come from a family of 4 members, Younger sister Pursuing her studies, Father a Transport Employee, and Mother a home maker. My Parents were initially skeptical of me entering IT industry as they felt there is no scope of growth but after seeing my progress and fine work experience they got faith that I can do well in this field. Once again all this was possible because of EduBridge and Capgemini CIS program which I joined on my friend's recommendation.

“ I wish to pursue further studies in time to come. I was inclined towards mathematics and hence have started preparing for my PHD in this subject and my end goal is to appear for UPSC exams and clear them with flying colors. I have looked upto Rajendra Ratnoo an IAS officer who inspired me for UPSC and I also draw inspiration from Dr.APJ Abdul Kalam. ”

Alongside my job and studies I have a small part time business where I make CROCHET items and sell them for extra income and have also made my presence felt on social media for awareness about the same. I am extremely grateful for everything and would once again like to thank each and everyone who has contributed in my life journey so far.

JOB LOCATION: **CHENNAI**  
ANNUAL SALARY OFFERED: **₹ 2,40,000**

- KAJAL ARKHADE

For Kajal Arkhade, the experience at EduBridge was a bit different. She was entering the learning phase after marriage, and post a gap of two years which challenged her memory of technical concepts she learned at college. Her friend, Shweta Bhavsar, convinced her to join EduBridge and get back into the rhythm of training and eventually, working. Today, they both work at the same multinational company, Capgemini.

Currently, Kajal works as a Cloud Infra Engineer at Capgemini and contributes to her household income, along with her husband who encourages her every step of the way. It was imperative for Kajal to update and refresh her knowledge on Java and other computer programming concepts, which EduBridge fulfilled. Moreover, the trainers focused on soft skill training, which gave her the edge she needed to secure a job. "Priya Shetty Ma'am was brilliant. She spoke to us only in English, leaving us with no choice, but to polish our speaking skills." Kajal was also able to build her confidence for the job interview through soft skill training techniques. "We were coached on how to present ourselves, maintain eye-contact and speak confidently".

“ It was a long-term dream of mine to work in the Information Technology field. But finding a job in the pandemic was tough. Many courses online were expensive. Luckily, EduBridge was a cost-effective choice and proved most useful to me ”

Kajal will be done with her five-month training period at Capgemini within the next month and feels content with her workplace and colleagues. Her seniors, managers and HR representatives interact with her on a weekly basis, to ensure job satisfaction. Yet, for Kajal, her true achievement lies in breaking barriers, such as working post marriage and that too, for the first time. "My husband works at a local company, while I am at a multinational corporation. Still, he is very proud of me and shares this feeling with all his friends too"!

In the future, Kajal hopes to work as software developer, which would require a change in her career track. But, with the skills of EduBridge backing her at every step, Kajal is certain that this dream too, will come true with continuous effort on her part.

PLACED WITH: **CAPGEMINI**  
DESIGNATION: **CLOUD INFRA ENGINEER**  
JOB LOCATION: **MUMBAI**  
ANNUAL SALARY OFFERED: **₹ 2,40,000**

- KOMAL MHATRE

Komal Mhatre was looking to secure a job after completing a Bachelor's Degree in Computer Science. Although she was not new to the world of engineering, she wanted to work on her confidence and skills, two aspects that she felt her educational degree was not able to fulfil. A friend, who had been a learner at EduBridge, convinced Komal to enrol at the institute as well. Soon after, Komal opted for a course in Software Testing.

Six years of education, including a diploma and engineering degree, were not sufficient for Komal to give her the confidence to apply for her dream job. Yet, after four months of training at EduBridge, she finally had her first job letter in her hand. That moment, she reveals, was "unbelievable!" Before learning at EduBridge, her aim was merely to find work, regardless of the organisation. However, her trainers guided her and made her realise her own potential, convincing her to aim for nothing less than what she is capable of. Komal took their advice and chose not to settle. Today, she works at Capgemini, a reputed multinational company and is able to support her extended family and herself, financially.

“ My trainer, Priyanka Ma'am was efficient and understanding. She taught us everything, right from the basics of what is software testing, to how we can apply those concepts practically, at work. Priyanka Ma'am also groomed us on how to appear for job interviews ”

Komal was finally beginning to learn all the skills and aspects that had somehow been overlooked in her studies prior to EduBridge. Before opting for the course, she had a clear objective to develop the right skills in herself. She wanted one institute that would check all the boxes, right from technique and theory, to soft skills and communication development.

Komal recalls being asked to do an array of interactive tasks, which helped her build her confidence and improve her social skills. "Swapna Ma'am used to engage us in weekly conversations and group discussions which would increase our confidence." Saturdays were typically spent focusing on extra tips for the learners. Furthermore, the trainers put in a great deal of effort to enhance the interpersonal skills of the learners, apart from correcting the week's homework.

From hesitating to answer during oral examinations at college, to cracking job interviews at global giants like Capgemini, Komal's journey till date is a testament to her diligence as a learner and the consistent efforts put in by her trainers at EduBridge. A self-sufficient woman, aiming for even higher goals (including a dream trip to Kedarnath), Komal has surely achieved what she sought out to, excelling beyond even her own expectations!

\*Some of the recruiters where our learners have been placed

- MAHIMA GAIKWAD

Armed with a Bachelor's Degree in Information Technology, Mahima Gaikwad was searching for a job for a year, but her efforts were futile. Even with an educational degree, she found herself diffident and unable to crack job interviews. On other occasions, Mahima felt unequipped, in terms of skill development, in front of her competitors. "That's when a friend of mine referred EduBridge to me. I contacted Tushar Sir, one of their team members and immediately enrolled for a course". In retrospect, Mahima realises that the paucity in soft skill training in college and lack of attention towards developing confidence, stood in her way of getting her dream job.

Mahima joined EduBridge with clear intentions: to improve her technical skills and to enhance her presentation skills.

"I was always poor at automation, a subject I actually wanted to excel in. I remember doing an automation project in college and facing multiple difficulties too. At EduBridge, my trainers, especially Shweta Ma'am and Priyanka Ma'am, realised that I do have an aptitude for automation. With their guidance and encouragement, I was able to clear all my doubts regarding automation!"

After joining EduBridge, Mahima got to know about job openings at Capgemini, an enviable global organisation and registered through EduBridge, following which she received a call for an interview. Today, Mahima works at Capgemini in Software Testing. She attributes her success to her trainers at EduBridge, who were always present for her. They were approachable, helpful and cleared her doubts on time. This efficiency is what enabled Mahima to perform well in her job interview, a task that she had been trying to accomplish since a year. "I would like to thank the whole team at EduBridge. I am where I am because of their training and I got my first job because of them!"

As the first working woman in her family, Mahima feels a great sense of accomplishment. Her father was especially proud of her feats and efforts towards increasing her confidence. She has also set an example for her younger brother, who is currently studying at college. While Mahima enjoys her work, a good book or a movie are her chosen ways to unwind. With her mind sharply focused on her current post at Capgemini, she hopes to one day, work as the manager or the team lead post.

ANNUAL SALARY OFFERED: **₹ 1,80,000**

- MANJULA SA

My name is Manjula, I am a Bio technology student from a rural city of Bangalore Karnataka who stays in a joint family of 8 people. My Brother is a practicing Doctor, my mother and aunt are home makers and my cousins are still studying. My hobbies were to play sports like Soft ball and cricket but due to the current Covid situation, I am unable to play these outdoor games anymore.

So after my graduation (BTech), my father wanted me to pursue my further studies and apply for government exams as they were not in favour of me moving out of the house and pursue a job. But I had different plans and wanted to be independent and start working instead of studying further. So inspite of the family pressure, I went ahead and applied on Naukri.com to try my luck and through there I was approached by EduBridge team, who provided me with details of many courses which seemed very promising & motivated me to do my own research about the various training programmes EduBridge offers and finally, enrolled myself in one of their courses on Soft Skills Training.

My life Mantra :  
*Confidence is the most important trait which everyone should have to achieve anything in life. Don't Quit and Don't stop learning, ever!*

To be very honest, I was not a very confident person initially and also lacked soft skills and my expectation from this training was to polish my vocabulary & gain confidence. I would like to give full credit for this new gained confidence to EduBridge for making me all that I am today which not only polished my communication skills & confidence, but also helped me get my 1st Job and take a step towards being the 1st independent girl from my family, who is working currently.

My family is still not in the favour of me doing a job, but I am very happy where I am today as I am proud to introduce myself as Manjula, a Cloud Infra Engineer at CapGemini. And my working experience at the firm so far has also been great as I can say I am blessed to have a wonderful group of seniors and colleagues, who are very supportive and have never made me feel that I am just a fresher amongst all of them. I can also say that all these people around me are my role models, as I am learning something from each one of them, everyday and it only takes me closer to my next goal of being a Team Leader in my field, in the coming 2-3 years, for which I am working hard to achieve the same.

ANNUAL SALARY OFFERED: **₹ 2,40,000**

- ROSHANI DHATRAK

Roshani Dhatrik is a studious girl who takes a keen interest in learning new computer programming languages from Java and Java Script, to Python and the like. She has an educational background in Computer Science and is ambitious in nature. However, Roshani was always hesitant to work, so much so that she neglected even applying for a job. A lack of confidence and the familiar barrier of speaking in English, often acted as obstructions on her path to securing her dream job. "A friend of mine who had enrolled at EduBridge, encouraged me to register for one of their courses. I was just a fresher but I wanted to work and it was necessary for me to hone a few skills for that".

Initially, Roshani was hesitant about enrolling at EduBridge,

"I wasn't sure if I would be able to manage everything, if it's the right course for me, whether I would get a job, etc. But gradually, as the days passed, I got confidence and realised that I can do it. My trainers made me realise that I can get a job."

Roshani works as a Java/Python Developer at Capgemini today and is the first working woman in her family. "My whole family feels proud of me! Whenever my parents talk to someone, or others tell them about my accomplishments and profession, it feels great. I feel proud when my parents feel proud." Her parents supported her decision to enrol at EduBridge, but were oblivious of her job search attempts. Hence, her first job letter was met with loud applause as it came as a pleasant surprise for her parents, who had witnessed her struggle over the years.

The master trainers at EduBridge were the catalysts that enabled Roshani to achieve what she had set out to - skill development and a more confident version of herself. "Our trainers would ensure that we spoke only in English and not in Hindi or any other language. Today, even at work, when I am in a meeting or interacting with my colleagues, this comes in handy. I am no longer hesitant to speak in English." Cracking the job interview, which posed as a daunting task before her training at EduBridge, became easier with time and practice. "Sheetal Ma'am held mock interviews for us and taught us everything, including how to introduce ourselves in front of the interviewer. This made us more confident".

Roshani is grateful to her trainers at EduBridge, who she believes, help eager students from different backgrounds to achieve their true potential. During her journey at EduBridge, she learned how to communicate in English, focused on up skilling and developed her knowledge on Java. It is evident through Roshani's success story that confidence, often the vital ingredient that job aspirants require but tend to lack, is instilled in learners at EduBridge.

- SUGANYA M

Coming from a very small village in Chengalpattu, Suganya belong to a family of 9 people. Her father works as a Ground staff at one of the corporate offices near their home. Her parents were always supportive of her interest. Instead of letting her drop-out and discontinue her education, they made her join a Government college that offered courses in local language. As a result, she never needed to learn or write or speak in English. She graduated with flying colours, however, couldn't secure a job even after multiple interviews.

“The Team was very friendly and the counsellors helped me understand and choose a course based on my skillset.”

One of her friends who was already undergoing training at the Centre, recommended she join the LEAP Academy so she can get help with learning English as well as have help with up-skilling her knowledge in a sector where she was interested in. “My parents and I visited the centre and it just felt that I was at a right place! The Team was very friendly and the counsellors helped me understand and choose a course based on my skillset.” She is thankful to EduBridge and Capgemini for the opportunity and happy that she is now placed at Madhura Infotech with a salary that helps her contribute to the family income. Her siblings are now either in school or have joined the LEAP Academy to follow in their sister's footsteps!

ANNUAL CTC OFFERED: **₹ 1,20,000**

- CHANDAN J R

The attitude of majority of people isn't normal towards the physically challenged individuals. Chandan was one of them to face this when he completed his PUC and started looking for a job. Rejected because he was handicapped, made him feel demotivated and worried about his future. He kept trying but failed because he lost hope and with that, his confidence as well. “My sister has been really helpful when I was going through the rejection phase of my life. She was the one who heard about EduBridge from her friends who were undergoing training at the LEAP Centre. We visited and by the time, I was out of the Centre, I felt that my disability didn't matter to the Team at all. It was a sign that I had made a good decision of enrolling there.”

“The training was great and the methods the Team used at the Centre made us all want to go back the next day. It was very interactive and with all the activities that we were made to do, my confidence in myself increased.”

“The training was great and the methods the Team used at the Centre made us all want to go back the next day. It was very interactive and with all the activities that we were made to do, my confidence in myself increased. I pushed harder with the Team's support and am very happy that I can now communicate well in English. This one step I took, totally changed my life in all aspects. I can attend any type of interview now without feeling demotivated about people's attitudes. I was taught to highlight my skills and why an employer should hire me over anybody else without any judgement. I got placed at Genisys India Pvt Ltd. as a KBL Processor and my family is very proud. Thanks to EduBridge for all their support and motivation. I now feel that I can grow and don't have to settle for lesser things in life just because I am disabled. Thank you, Centre Team!”

PLACED WITH: **GENISYS INDIA PVT LTD.**  
DESIGNATION: **KBL PROCESSOR**  
JOB LOCATION: **HASSAN**  
ANNUAL SALARY OFFERED: **₹ 1,50,000**

- KOUSER BANU

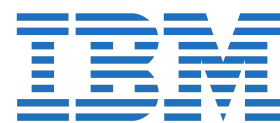

Being a woman, it wasn't easy for Kouser to continue her education after schooling. Her family did not support her further education nor motivated her interests in a job to support her family just like a son would. Kouser knew how important it was not only for her but her family as well that she take up a job. When she read an advertisement about EduBridge, she decided to visit the LEAP Centre and spoke to the counsellors about the courses and placement program. Back home, her family disapproved of the idea but she still decided she would pursue it. Even with no emotional or financial support from the family, she managed to enrol at the Centre

“The training not only covered sector-specific material but we did a lot of activities that helped me build my confidence. EduBridge helped me improve my interview skills as well and I attended various interview conducted through the placement program.”

Having few people in her life to support her career aspirations, she successfully completed training at EduBridge. “The training not only covered sector-specific material but we did a lot of activities that helped me build my confidence. EduBridge helped me improve my interview skills as well and I attended various interview conducted through the placement program. I joined Genisys India Pvt Ltd. My parents have since then understood the value of educating women and have started to support me. Thanks to the EduBridge Team for helping me bring about this change of mindset!”

PLACED WITH: **GENISYS INDIA PVT LTD**  
DESIGNATION: **CUSTOMER SUPPORT EXECUTIVE**  
JOB LOCATION: **MEDAHALLI**  
ANNUAL SALARY OFFERED: **₹ 1,44,000**

# BANGALORE - KR PURAM

## LEARNERS FROM BANGALORE

“ We have sourced some very good candidates from the EduBridge Learning. We were amazed by the immense talent and skills these candidates possess. We were very impressed by the quality of education and training the institute had provided them with. The learners were confident and very well prepared for the interviews. We wish to congratulate and wish luck to all the learners for their future. ”

“I must say the set of trainers we had during our course were not only approachable but also helpful. They conducted a lot of activities during the course. The Mock Interviews conducted during the training, was in my opinion the most helpful during my final interview and landed me with my 1st job.”

“I give due credit for the positive change of personality to my master trainer Salman Sir, he transformed me as a person, without a doubt! I was always a very demotivated person, full of negative thoughts and barely smiled, but he changed my entire approach towards life and I can say my biggest takeaway from him and EduBridge is Positivity and Smile which are now my energy boosters at every step.”

“The training not only covered sector-specific material but we did a lot of activities that helped me build my confidence. EduBridge helped me improve my interview skills as well and I attended various interview conducted through the placement program and got placed. My parents have since then understood the value of educating women and have started to support me. Thanks to the EduBridge for helping me bring about this change of mindset!”

PLACED WITH : GENISYS INDIA PVT LTD
